01

Business Overview

Summit Sites is a web design agency built specifically for local small businesses. It operates on a demo-first sales model — websites are pre-built and shown to prospects before any money changes hands, making the value immediately visible and removing the need to "sell" in the traditional sense.

Business Model at a Glance

WHAT WE SELL	Professional websites for local small businesses
HOW WE BUILD	AI tools (Base44) — fast, cost-effective production pipeline
REVENUE STREAM 1	One-time setup fee — collected upfront before any build begins
REVENUE STREAM 2	Monthly maintenance, hosting, and support fee (recurring)
SALES STRATEGY	Demo-first outreach — show the built site, then close
PRIMARY NICHE	Barbershops (launch focus), expanding to restaurants, contractors, salons, retail
TARGET MARKET	Local small businesses with no website or an outdated, non-mobile site
OUTREACH CHANNELS	Cold calls, cold email, Instagram DMs, Facebook DMs

Core Business Principles

- Always lead with value — show the demo before discussing price. Let the work do the talking.
- Never start building until the setup fee is paid in full. This is non-negotiable.
- The monthly fee is non-negotiable. Frame it as "hosting and maintenance included." Without it, the site goes offline.
- Domain ownership always stays with the client. This builds trust and reduces friction at the close.
- Never discount a quoted price — offer a lower tier instead. Discounting trains clients to always negotiate.
- Always present the Standard tier by default in every pitch. Let them ask for cheaper — most won't.
- Calls are short and outcome-focused. The goal is to send a demo and book a follow-up, not close on the spot.
- Even rejections are recoverable. Leave every conversation professionally — a structured follow-up sequence exists.
- Pricing is never shown publicly — it forces a conversation, which is where trust is built and deals are closed.

Sales Process — How a Deal Flows

STEP	ACTION	GOAL
1 — Prospect	Find businesses with no website or poor website via Google Maps, Instagram, Yelp	Build a lead list

STEP	ACTION	GOAL
2 — Outreach	Cold call, cold email, or DM with a short value-first message	Get permission to send demo
3 — Demo send	Share the pre-built demo link. Say "I built this for a business like yours"	Create desire
4 — Follow-up	Book a call to walk through the demo and answer questions	Build trust, handle objections
5 — Close	Present Standard tier. Send contract + invoice. Collect setup fee upfront	Get paid
6 — Build	Customize the site with client's real info, logo, photos, hours	Deliver the product
7 — Launch	Connect domain, launch site, transition to monthly plan	Start recurring revenue
8 — Retain	Monthly check-ins, fast response, content updates, upsells	Keep client paying monthly

02

Brand Identity

Logo

The Summit Sites logo is a custom wordmark. "SUMMIT" is set in a heavy condensed sans-serif typeface in all caps. A mountain silhouette is cut directly into the negative space of the "MM" letterforms — the mountain peak is visible as a white/negative cutout. Below "SUMMIT" sits "SITES" in widely tracked uppercase letters with significant letter-spacing, smaller in size, acting as a subtitle.

- Use the white version of the logo on dark backgrounds. Use the black version on light backgrounds.
- The logo must only appear on pure white (#FFFFFF) or near-black (#0C0C0C–#1A1A1A) backgrounds.
- Never stretch, rotate, recolor, add effects to, or alter the logo in any way.
- Minimum clear space: equal to the cap-height of the "S" in SITES on all four sides.
- Do not attach the tagline directly to the logo — use it as a separate text element below or alongside.
- Required file formats: SVG (primary, scalable), PNG with transparent background (2x resolution minimum), and a dark-background PNG version.
- The amber color (#D97706) is never applied to the logo itself — the logo is always black or white only.

Color Palette — Bold Amber

The primary palette is Bold Amber. It is warm, confident, and premium — designed to feel immediately trustworthy to local business owners while standing apart from the cold blue tones of typical tech companies. Amber is the single accent color across all materials.

			WHERE USED
Primary Background	Near Black	#111111	Backgrounds, hero sections, navigation, footer
Hero Background	Deep Black	#0C0C0C	Hero section, cover dark areas
Accent (primary)	Amber	#D97706	Buttons, links, borders, highlights, all CTA elements
Accent (hover)	Amber Light	#F59E0B	Hover and active states on amber elements
Light Background	Off White	#F9F5EF	Light section backgrounds, alternating rows
Surface	Pure White	#FFFFFF	Cards, form inputs, light sections
Body on Dark	Mid Gray	#AAAAAA	Body copy on dark backgrounds
Body on Light	Dark Gray	#555555	Body copy on light/white backgrounds
Subtle Border	Light Gray	#E0E0E0	Table borders, dividers, subtle separators
Muted Text	Gray	#888888	Captions, labels, secondary info

Important: The amber color (#D97706) is the ONLY accent color in the palette. No other colors (blue, green, red, purple) should appear in Summit Sites materials unless they are inside a client demo site.

Typography

Typography uses a mixed approach: elegant serif headings paired with clean sans-serif body text (Option A). The designer is expected to replace placeholder fonts with the client's chosen custom typefaces once sourced. All placeholder font choices are noted below.

	CURRENT FONT	WEIGHT	SIZE	STYLE NOTES
H1 — Hero Heading	Georgia	Normal 400	52–96 px	Italic on the key emphasis word. Italic word is amber (#D97706).
H2 — Section Heading	Georgia	Normal 400	30–52 px	Line height 1.15. Never bold — let the size do the weight.
H3 — Card Heading	Georgia	Normal 400	20–26 px	Line height 1.2.
Eyebrow Labels	System Sans	Medium 500	11px	ALL CAPS. Letter-spacing 0.15–0.18em. Color: #D97706 amber always.
Body Copy	System Sans	Regular 400	13–17 px	Line height 1.7–1.8. Color varies by section background.
Navigation Links	System Sans	Regular 400	13px	Letter-spacing 0.02em. Muted on dark bg, bold amber for CTA.
Buttons	System Sans	Bold 700	13px	ALL CAPS. Letter-spacing 0.04–0.06em. Amber bg + black text.
Marquee / Ticker	System Sans	Bold 700	11px	ALL CAPS. Letter-spacing 0.12em. Black text on amber background.
Captions / Labels	System Sans	Regular 400	8–9px	Muted gray. Used for notes, captions, small metadata.
Footer	System Sans	Regular 400	12px	Muted color, minimal.

Designer note: Custom fonts will be supplied by the client at a later stage. When received, replace Georgia with the custom serif, and replace system sans-serif with the custom sans. Ensure variable font or all required weight files (.woff2) are available before implementation.

Tagline

"Your business, elevated."

This is the official Summit Sites tagline. Use it in the hero section, social media bios, email signatures, and all marketing materials. Do not alter, abbreviate, shorten, or paraphrase it. The comma and the period are part of the tagline.

	HOW TO USE
Website hero section	Full tagline as H1 or directly below H1. "elevated." in italic amber.
Instagram bio	"Your business, elevated." — as the one-line bio description.
Facebook page	In the short description field under the page name.
Email signature	Below name and title: "Summit Sites — Your business, elevated."
Business card	Reverse side, centered, below logo.
Demo site footers	Do not use — demos carry their own fake business info.

03

Pricing Structure

INTERNAL USE ONLY — DO NOT DISPLAY PUBLICLY

Pricing is never advertised on the website, social media, or any public-facing material. All pricing is shared directly and privately with prospects during the sales conversation. This is a deliberate strategy — it forces a conversation, which is where trust is built and the deal is closed. Any designer or developer with access to this document must not include pricing anywhere on the public site or social media assets.

	STARTER	STANDARD	PRO
Setup Fee (one-time)	\$299	\$599	\$999
Monthly Fee	\$29.99/month	\$49.99/month	\$79.99/month
Pages	3 pages	5 pages	7+ pages
Mobile Friendly	Yes	Yes	Yes
Contact Form	Yes	Yes	Yes
Google Maps Embed	Yes	Yes	Yes
Photo Gallery	—	Yes	Yes
Basic SEO Setup	—	Yes	Yes
Booking Integration	—	—	Yes
Monthly Content Updates	—	1 update/month	Unlimited
Support Priority	Standard	Standard	Priority
Hosting Included	Yes	Yes	Yes
Who it is for	Budget-conscious leads, foot-in-door	Default pitch — majority of clients	High-end businesses, larger sites

Pricing Rules for Sales Conversations

- Always collect the full setup fee upfront before writing a single line of code or starting any build.
- If a prospect says "too expensive," offer the Starter tier — never discount the Standard tier they were quoted.
- Always lead with Standard in every pitch. Do not ask about budget first — present Standard as the obvious default choice.
- Monthly fee covers hosting, maintenance, backups, and support. Without it, the site goes offline. Frame it this way always.
- Pro tier exists strategically to make Standard look like the obvious, reasonable middle choice (anchor pricing).
- Never publish, hint at, or confirm pricing on the website, social media, or in any public post or comment.
- In DMs and comments, always respond to pricing questions with: "DM me and I'll send you all the details."

Revenue Math — Monthly Recurring Targets

	STANDARD CLIENTS NEEDED	MONTHLY RECURRING
First milestone	5 clients	\$249.95/month
Part-time income	10 clients	\$499.90/month
\$1,000/month recurring	21 clients	\$1,049.79/month
\$2,000/month recurring	41 clients	\$2,049.59/month

Note: These figures are based on Standard tier monthly fee of \$49.99. Mix of tiers will shift these numbers. Setup fees are additive one-time income on top of the recurring base.

04

Website Design Brief

The Summit Sites website is the agency's own online presence. It must embody the brand completely — it is simultaneously a portfolio piece, a credibility signal, and a sales tool. Prospects will check this site before deciding to respond to an outreach message. It must look exceptional.

Design Direction & Visual References

The design direction was defined by five reference images supplied by the client:

REF		WHAT TO TAKE FROM IT
Images 1 & 5	Dark atmospheric photography — swirling amber fire, blurred orange sunset	Hero mood and color temperature. Near-black background with a warm amber radial glow. Not literal fire — abstract, atmospheric warmth.
Image 2	Carbitex website (premium materials brand)	Editorial layout structure. Clean amber/orange accent boxes and borders. Bold condensed typography. High-contrast black and white sections with a single color accent.
Image 3	Scött financial app	Dark amber sections with white type. Sophisticated and premium. Dotted/particle texture in background (optional subtle treatment).
Image 4	Abstract amber-teal liquid glass texture	Color temperature reference. The amber is warm but not garish — it has depth. The teal in the image is NOT used in the Summit Sites palette.

Critical Non-Negotiable Rules

NO PRICES ANYWHERE ON THE SITE

Pricing must never appear on the website in any form — not on a services page, not in a FAQ, not as "starting from," not as a range. All pricing inquiries go through the contact form. This is a deliberate sales strategy and must be maintained.

- Every single CTA (call to action) on the entire site drives to the contact form. "Get in touch" is the primary CTA.
- The site must be fully responsive and look perfect on a phone screen — many prospects will open it on mobile.
- Page load speed must be fast. Avoid heavy animations, large unoptimized images, or blocking scripts.
- The contact form must be connected to a working email notification before the site goes live.
- No external tracking pixels, ads, or third-party popups — the site must feel clean and professional.

All Page Sections — In Order

#		KEY ELEMENTS	DESIGN NOTES
1	Navigation (sticky)	Logo left. Links: Services, Work, About. Right: "Get in touch" amber CTA button.	Fixed to top. Near-black bg (#111). Amber CTA button. Backdrop blur on scroll. Logo: white version.

#		KEY ELEMENTS	DESIGN NOTES
2	Hero	Eyebrow label (amber). H1: "Your business, elevated." (italic amber on "elevated."). Subheading. Two CTAs. Two stat callouts bottom-right.	Full viewport height. Near-black bg with amber radial glow top-right. Vertical amber line accent left of content. "Scroll" label rotated vertically bottom-left.
3	Marquee Strip	Scrolling ticker: Barbershops • Restaurants • Contractors • Salons • Retail • Cafes • Trades • Local Services	Solid amber (#D97706) background. Bold black uppercase text. Continuous loop animation. Diamond separator between items.
4	Services (3 cards)	01 Website Design & Build / 02 Hosting & Maintenance / 03 Ongoing Support. Each has number, title, description, and feature list.	Dark bg. 3-column grid separated by 1px borders. Amber 2px top-border animates in on hover. Feature list with amber dots.
5	How It Works (3 steps)	Step 1: We talk / Step 2: We build / Step 3: You go live. Each has circle number, title, and description.	Black bg. Amber circle outlines for step numbers. Thin amber connecting line between circles. Clean and minimal.
6	Industries (4 cards)	Barbershops & Salons / Restaurants & Cafes / Contractors & Trades / Retail & Local Shops. Each: tag, title, description, arrow.	Dark bg. 2x2 grid. Amber border on card hover. Arrow animates right on hover. No portfolio screenshots yet — text only initially.
7	About	Left col: eyebrow + quote block ("Every local business deserves a professional presence online." — italic amber on key phrase). Right col: 3 body paragraphs + CTA button.	Black bg. Two-column layout. Amber divider line above CTA button.
8	Contact Form	Eyebrow. H2: "Ready to get your business online?". Subheading. Form: Name, Business Name, Email, Phone, Message, Submit.	Solid amber (#D97706) background. Black text throughout. Dark (#111) submit button. No pricing mentioned near or in this section.
9	Footer	Left: logo (black version). Center: copyright. Right: nav links.	Dark bg. Minimal. 3-column layout. Thin amber top border.

Full Copy — All Website Text

The copy below is final and approved. Do not rewrite or alter it without client sign-off.

Navigation CTA	Get in touch
Hero — Eyebrow	Web design for local businesses
Hero — H1	Your business, elevated. (Note: italic + amber color on the word "elevated.")
Hero — Subheading	We build professional websites for local businesses that help you get found, get more clients, and grow — without the tech headache.
Hero — Primary CTA	Get in touch
Hero — Secondary CTA	See our work →
Hero — Stat 1	48h / Average turnaround
Hero — Stat 2	100% / Mobile friendly
Hero — Scroll label	Scroll (rotated vertical text, bottom-left)

Navigation CTA	Get in touch
Marquee content	Barbershops • Restaurants • Contractors • Salons • Retail • Cafes • Trades • Local Services (repeating loop)
Services — Eyebrow	What we do
Services — H2	Everything your business needs online.
Services — Aside	From design to launch to ongoing support — we handle it all so you can focus on running your business.
Service 1 — Title	01 / Website Design & Build
Service 1 — Body	A custom, professional website built around your business — fast, clean, and designed to turn visitors into customers.
Service 1 — Features	Custom design for your brand / Mobile-friendly on all devices / Contact forms & photo galleries / Google Maps & location info / SEO-ready from day one
Service 2 — Title	02 / Hosting & Maintenance
Service 2 — Body	Your site stays live, fast, and current every month. No technical headaches — that's our job, not yours.
Service 2 — Features	Reliable monthly hosting / Regular updates & backups / Uptime monitoring / Speed & security checks / Content updates included
Service 3 — Title	03 / Ongoing Support
Service 3 — Body	New hours, new photos, new services? Just reach out. We make the changes and keep everything up to date for you.
Service 3 — Features	Fast response times / Monthly content updates / You own your domain / No long-term contracts / Real person, real support
Process — Eyebrow	How it works
Process — H2	Up and running in three steps.
Process — Aside	We keep it simple. No jargon, no long timelines, no surprises.
Step 1 — Title	We talk
Step 1 — Body	Tell us about your business. We'll show you a demo site already built for businesses like yours — so you can see exactly what you're getting before spending a dollar.
Step 2 — Title	We build
Step 2 — Body	We customize everything — your logo, photos, hours, services, and contact info. Most sites are ready to review in as little as 48 hours.
Step 3 — Title	You go live
Step 3 — Body	We connect your domain, launch the site, and handle everything going forward. You run your business — we keep you online.
Work — Eyebrow	Industries we serve

Navigation CTA	Get in touch
Work — H2	Built for businesses that mean business.
Card 1 — Tag / Title / Desc	Barbershops & Salons / "Look as sharp online as you do in person." / Booking links, service menus, gallery, hours, and location — everything your clients need to find you and book.
Card 2 — Tag / Title / Desc	Restaurants & Cafes / "More tables filled, more orders placed." / Menu display, location, hours, and ordering links — all in one clean, fast-loading site your customers will actually use.
Card 3 — Tag / Title / Desc	Contractors & Trades / "Get found by people ready to hire." / Service lists, project galleries, quote request forms, and testimonials that convert visitors into paying leads.
Card 4 — Tag / Title / Desc	Retail & Local Shops / "Your storefront, open 24/7 online." / Hours, location, product highlights, and social links — everything customers look for before walking through your door.
About — Eyebrow	About Summit Sites
About — Quote	"Every local business deserves a professional presence online." (italic amber on "professional presence")
About — Para 1	Summit Sites is a web design agency built specifically for local small businesses. We know you're busy — you don't have time for complicated tech, long timelines, or developers who disappear after launch.
About — Para 2	So we handle everything. One setup fee, one monthly rate, one person to call. No jargon, no surprises, no long contracts.
About — Para 3	Your website should be working for you around the clock — bringing in new clients even when you're not open. That's exactly what we build.
About — CTA	Work with us
Contact — Eyebrow	Let's work together
Contact — H2	Ready to get your business online?
Contact — Subheading	Fill out the form below and we'll get back to you within 24 hours — usually with a free demo site already built for your business.
Form fields	Your name / Business name / Email address / Phone number / Tell us a bit about your business — what you do, where you're located, and what you're looking for.
Submit button	Send message
Footer — Copyright	© 2025 Summit Sites. All rights reserved.
Footer — Links	Services / Work / About / Contact

05

Demo Websites

Before any client outreach begins, three demo websites must be pre-built for barbershops. These demos are the core sales tool — they are shown to prospects to make the value of Summit Sites immediately tangible before any money is discussed. The demo does the selling. The outreach just opens the door.

Why demos work: Barbershop owners are visual people. When they see a fully built website with their type of business already in it, they immediately understand the value. It is far more powerful than any description or sales pitch. The goal of every outreach message is simply to get the prospect to open the demo link.

Required Sections — Every Demo Must Have All 6

	PURPOSE	PRIORITY
Hero / Landing	Shop name, tagline, high-quality hero photo, and a prominent "Book now" or "Call us" CTA button. This is what makes the prospect say "that looks like my shop."	Critical
Services & Pricing	A clean, easy-to-read list of cuts, fades, beard trims with sample prices. This is the most searched section on any barbershop website.	Critical
Photo Gallery	A grid of real barbershop haircut photos sourced from Unsplash or Pexels. The owner immediately visualizes their own work photos filling this grid.	High
About the Barber	A short, personal bio section. Makes the site feel real and human. Barbershop clients pick a barber they trust — this section builds that trust online.	High
Location & Hours	Google Maps embed, full address, and opening hours. The number one thing customers search for — "is this place open right now?" Must be easy to find.	Critical
Contact / Book	Phone number, Instagram link, and optionally a booking platform button (Booksy, Square, etc.). The entire site drives to this moment — make it unmissable.	Critical

Demo 1 — Classic & Traditional [BUILD THIS FIRST]

The priority demo. Traditional barbershops are the majority of the market. This demo will resonate with approximately 70% of all barbershop prospects. Build this one before beginning any outreach.

Fake Business Name	"The Blade Barbershop" or similar classic, strong name
Background Color	#1A1410 — near-black with a warm dark brown undertone
Accent Color	#C8972A — old-school barber gold
Typography	Serif headings (Georgia), clean sans-serif body text

Fake Business Name	"The Blade Barbershop" or similar classic, strong name
Overall Vibe	Traditional, masculine, trustworthy, established — like a proper old-school barber
Hero Image	Classic barbershop interior OR a sharp close-up of a skin fade. Source: Unsplash (search "barbershop")
Sample Services	Classic Cut \$25 / Skin Fade \$30 / Beard Trim \$15 / Hot Towel Shave \$35 / Line-Up \$12
Gallery Photos	6–9 photos: close-up fades, barbershop interior, barber working, finished looks
About Copy	"With over 10 years in the chair, we've built our reputation one cut at a time. Walk-ins welcome — appointments preferred."
Sample Hours	Mon–Fri 9am–7pm / Sat 8am–5pm / Sun Closed
Hosted URL target	summitsites.com/demo/classic OR a clean Base44 hosted URL

Demo 2 — Modern & Clean

For contemporary barbershops with a younger, urban clientele. Instagram-friendly, minimal, and fresh. Build this second.

Fake Business Name	"Sharp" or "Sharp Cuts & Grooming"
Background Color	#FFFFFF — pure white with light gray section accents (#F8F8F8)
Accent Color	#111111 — clean black as the accent on a white ground
Typography	Heavy bold sans-serif headings (Impact-style weight), clean sans body
Overall Vibe	Fresh, modern, contemporary, clean — like a new urban barbershop on a trendy street
Hero Image	Bright, clean studio-quality barbershop shot OR a precise fade on white/light background
Sample Services	Fade \$30 / Taper \$28 / Line-Up \$15 / Beard Design \$20 / Full Groom Package \$50
Gallery Photos	6–9 bright, well-lit photos — modern interior, clean cuts, satisfied clients
About Copy	"We're not your average barbershop. Sharp is built for the modern man who cares about how he looks — and wants it done right, every time."
Sample Hours	Tue–Sat 10am–8pm / Sun 11am–5pm / Mon Closed
Hosted URL target	summitsites.com/demo/modern OR a clean Base44 hosted URL

Demo 3 — Luxury & Premium

For high-end barbershops targeting professional and executive clientele. More expensive services, premium location feel, exclusive aesthetic. Build this third.

Fake Business Name	"Prestige" or "Prestige Gentlemen's Grooming"
Background Color	#0D0D12 — near-black with a very subtle dark navy undertone

Fake Business Name	"Prestige" or "Prestige Gentlemen's Grooming"
Accent Color	#7C6DDC — deep purple / violet, conveying luxury and distinction
Typography	Elegant refined serif headings (thin weight), wide letter-spacing on all labels
Overall Vibe	Exclusive, sophisticated, high-ticket, distinguished — where executives and professionals go
Hero Image	Moody, dramatic luxury barbershop interior — dark wood, leather chairs, warm lighting
Sample Services	Signature Cut \$55 / Executive Shave \$65 / Grooming Package \$90 / Monthly Membership \$120
Gallery Photos	6–8 moody, atmospheric photos — premium finish cuts, upscale interior, dramatic lighting
About Copy	"Prestige is more than a barbershop. It's an experience crafted for the modern gentleman who demands the best. By appointment only."
Sample Hours	Mon–Sat 9am–6pm / By appointment preferred / Sun Closed
Hosted URL target	summitsites.com/demo/luxury OR a clean Base44 hosted URL

Demo Production Rules — Applies to All Three

- Always use a fake business name — never use a real prospect's name before they have agreed to work with Summit Sites.
- Use real barbershop photography from Unsplash (unsplash.com) or Pexels (pexels.com). Search terms: "barbershop," "barber fade," "barbershop interior." Never use grey placeholder boxes — they kill the illusion.
- Every demo must be live at a real hosted URL. Never send a file. A professional link is part of the pitch.
- Every demo must be tested on a mobile phone before use. If it looks bad on mobile, do not send it.
- Use realistic fake contact details — a fake phone number (555 format), a placeholder Instagram handle, a fake address in a real city.
- Build Classic first. Then Modern. Then Luxury. Do not start outreach until Classic is live.
- Photo image optimization: compress all images to under 200KB each. Fast load time is part of the product promise.

06

Social Media Strategy

Social media serves two functions for Summit Sites: building credibility (so prospects trust us when we cold-reach out) and generating inbound leads (people who find us organically and reach out themselves). Pricing is never posted publicly — all pricing questions are answered privately.

Platform Priorities

	PRIORITY	PRIMARY ROLE	POSTING FREQUENCY
Instagram	Start immediately — Week 1	Portfolio showcase and outreach credibility engine. Best platform for visual before/after reveals and short Reels.	3–4 feed posts per week + daily Stories
Facebook	Start immediately — Week 1	Local business owners live here. Cross-post Instagram content. Post in local Facebook business groups to find prospects.	2–3 posts per week
Google Business Profile	Set up in Week 1 — maintain monthly	Local SEO. Appears in Google search results when someone searches "web designer Montreal." Passive lead source.	1 post per month minimum
TikTok	When ready to scale (Month 2+)	Viral reach via hook-driven videos. "I built a free website for a barbershop" style content can reach thousands organically.	1–2 short videos per week when active
LinkedIn	Optional — low priority	Referral network, not direct sales. More useful for connecting with other business owners who may refer clients.	Monthly if used at all

Profile Setup — Instagram

Username	@summitsites (or @summitsites.ca or @summitsitesagency — check availability)
Profile Photo	The Summit Sites logo — white version on black square background (#111111)
Name Field	Summit Sites — Web Design
Bio Line 1	Your business, elevated.
Bio Line 2	Professional websites for local businesses
Bio Line 3	Montreal, QC — serving businesses everywhere
Link in bio	Link to the Summit Sites website contact section or a Linktree with demo links
Account type	Switch to Business account for analytics and contact button
Highlights	Create Story Highlights: "Our Work" / "How It Works" / "Reviews" / "Get Started"

6 Content Buckets — Rotate Through These Every Week

BUCKET	WHAT TO POST	EXAMPLE CAPTIONS / HOOKS
1. Site Reveals	Before/after screenshots showing a business with no website next to the Summit Sites demo built for them. This is the highest-performing content type.	"Built this barbershop site in 48 hours. They had zero web presence before. Swipe → DM us for yours."
2. Education	Tips, facts, and insights about why local businesses need a website. Position Summit Sites as the expert.	"3 things your barbershop website must have (most don't have #2)" / "How customers find you before they ever walk in the door"
3. Social Proof	Client results, testimonials, Google reviews, and outcome stories. Once available from real clients — use this heavily.	"Client got 3 new booking requests in the first week of going live. Here's what we built for them."
4. Behind the Scenes	Screen recordings of a site being built, process content, workflow peeks. Makes the product feel real and tangible.	"Building a barbershop site from scratch — watch it go from blank to live in 60 seconds."
5. Demos & Hooks	Show the pre-built demo and invite people to claim one for their business. Direct response content designed to get DMs.	"I built this barbershop site and no one owns it yet. DM me 'barbershop' and it could be yours."
6. Value & Tips	Free advice that helps local business owners — even if they don't buy. Builds goodwill and positions Summit Sites as trustworthy.	"Free things every local business website needs in 2025." / "The #1 reason clients don't call you back."

Weekly Posting Schedule

DAY	INSTAGRAM	FACEBOOK
Monday	Site Reveal — demo or finished site, before/after	Cross-post the Monday reveal
Tuesday	Stories only — poll, question box, or behind scenes	—
Wednesday	Education post — tip or "why you need a site"	Post in a local barbershop / business Facebook group
Thursday	Stories only — reshare a client post or process clip	—
Friday	Hook post — "DM me 'barbershop' for a free demo"	Cross-post the Friday hook
Saturday	Stories — weekend engagement, behind scenes	—
Sunday	Rest or Stories only	—

Non-Negotiable Social Media Rules

- Never post prices on any platform — not in captions, Stories, comments, or DMs visible to the public. All pricing goes through private conversation.
- When someone asks about pricing in comments: reply "DM me and I'll send you everything." Turn every comment into a DM conversation.

- Consistency beats perfection. Three average posts per week beats one perfect post per month. Show up every week without fail.
- Cross-post everything. Make the post once on Instagram, then copy it to Facebook. Never double your workload for the same content.
- Always show the work — screenshots, demos, and results. A visual post will outperform any caption-only post every single time.
- Respond to every DM and every comment within 24 hours. Speed of response is part of the brand promise.
- Use "DM us" as the primary CTA on all posts — not a link, not a form. DMs start conversations. Conversations close deals.
- Never buy followers, use follow/unfollow tactics, or engage in any growth hacking. Growth must be organic and trust-based.
- Tag the niche in every post: #barbershop #barbershops #barberlife #localbarber — reach the exact audience being targeted.

Facebook Group Strategy

Facebook groups are a direct outreach channel. The goal is to find groups where barbershop and local business owners gather, and post the demo there.

- Search Facebook for: "[City] Barbershops," "[City] Small Business Owners," "[City] Entrepreneurs," "Barbershop Owners Network."
- Join these groups with the Summit Sites Facebook page.
- Post the demo with a clear hook: "Built this barbershop site as a demo — anyone in this group want something similar for their shop?"
- Do not spam. Post once per group per week maximum. Always lead with the demo visual, not a sales pitch.
- Engage genuinely in the group before posting — comment on other posts first to build recognition.

Quick Reference Summary

This page is a fast-reference cheat sheet for the most critical specs across the entire guide.

ITEM	SPEC
